

To whom it may concern;

04/15/08

My family and I have been listening to Christian radio for many years now. I believe that the positive music and message has helped to shape my children into productive members of society. My son is 22, married and working as an electrician, my middle daughter is attending her second year of college and our youngest is about to graduate from high school, going right on to college herself.

The regulations that are being proposed seem ridiculous requiring increased funding to put boards in each city, and additional staffing.

Plus in our area we listen via a translator which would not be a priority any longer.

Our family listens to Christian radio for many hours each day and these changes would most definitely affect this. Most of the people that I know in the area listen to Christian radio.

I understand that these changes are not set in stone, please consider the positive effect that Christian radio has made upon this family and I am sure countless other and do not make these changes.

Thank you
